Art Unit: 2133

1. During a telephone conversation with Mr. Richard Kotulak on August 27, 2002 a provisional election was made without traverse to prosecute the invention of <sup>five</sup> I, claims 1-7. Affirmation of this election must be made by applicant in replying to this Office action. Claims 8-22 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

3. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Barr (5,758,056) in view of Shingai (5,293,612).

Barr discloses a memory system having address identification, comprising:

Determining means for determining addresses of defective memory locations. (see abstract and col. 3, lines 50-52).

Barr does not disclose a means for determining a physical location of the defective address. However, Shingai

Art Unit: 2133

discloses a means for translating or determining virtual address into physical address by using a look-up table.

(see col. 3, lines 14-16). Therefore, it would have been obvious to a person of ordinary skill in the art, at the time the invention was made, to incorporate the teaching of Shingai into the invention of Barr to produce a physical address location of the defected address to correct errors.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phung M. Chung whose telephone number is (703) 305-9686. The examiner can normally be reached on T-F (every Monday Off).
